

# Charlie.

In 2007, our friend Charlie set out on an epic voyage pedaling from Toronto to Vancouver then South to San Diego... and back... *solo!* On the return leg from Vancouver - just outside of Brooks, Alberta - Charlie was struck from behind by a careless driver and killed.

He loved riding. He always had a smile for anyone. We'll miss him.

We're doing this ride to celebrate his life.

1984 - 2007
